SM24A-MA

RETRO FIT

Configurable damper actuator for adjusting dampers in technical building installations

- Air damper size up to approx. 4 m²
- Torque motor 20 Nm
- Nominal voltage AC/DC 24 V
- Control modulating 4...20 mA
- Position feedback 2...10 V

### **Technical data**

Electrical data	Nominal voltage	AC/DC 24 V	
	Nominal voltage frequency	50/60 Hz	
	Nominal voltage range	AC 19.228.8 V / DC 21.628.8 V	
	Power consumption in operation	3.5 W	
	Power consumption in rest position	1.25 W	
	Power consumption for wire sizing	6 VA	
	Connection supply / control	Cable 1 m, 4 x 0.75 mm <sup>2</sup>	
Functional data	Torque motor	20 Nm	
	Torque variable	25%, 50%, 75% reduced	
	Operating range Y	420 mA	
	Input Impedance	500 Ω	
	Position feedback U	210 V	
	Position feedback U note	Max. 0.5 mA	
	Position feedback U variable	Start point 0.58 V	
		End point 2.510 V	
	Position accuracy	±5%	
	Direction of motion motor	selectable with switch 0/1	
	Direction of motion note	Y = 0 V: At switch position 0 (ccw rotation) / 1 (cw rotation)	
	Direction of motion variable	electronically reversible	
	Manual override	with push-button, can be locked	
	Angle of rotation	Max. 95°	
	Angle of rotation note	can be limited on both sides with adjustable mechanical end stops	
	Running time motor	150 s / 90°	
	Running time motor variable	90350 s	
	Adaptation setting range	manual	
	Adaptation setting range variable	No action Adaptation when switched on Adaptation after pushing the manual override button	
	Override control	MAX (maximum position) = 100% MIN (minimum position) = 0%	
	Override control variable	MAX = (MIN + 32%)100% MIN = 0%(MAX – 32%)	
	Override control variable  Sound power level, motor		
		MIN = 0%(MAX – 32%)	
	Sound power level, motor	MIN = 0%(MAX – 32%) 45 dB(A)	
Safety data	Sound power level, motor Mechanical interface	MIN = 0%(MAX – 32%) 45 dB(A) Universal shaft clamp reversible 1020 mm	

Technical data sheet	SM24A-MA
5	705
Degree of protection IEC/EN	IP54
Degree of protection NEMA/UL	NEMA 2
Enclosure	UL Enclosure Type 2
EMC	CE according to 2014/30/EU
Certification IEC/EN	IEC/EN 60730-1 and IEC/EN 60730-2-14
UL Approval	cULus according to UL60730-1A, UL60730-2-14 and CAN/CSA E60730-1 The UL marking on the actuator depends on the production site, the device is UL-compliant
	in any case
Mode of operation	Type 1
Rated impulse voltage supply / control	0.8 kV
Pollution degree	3
Ambient humidity	Max. 95% RH, non-condensing
Ambient temperature	-3050°C [-22122°F]
Storage temperature	-4080°C [-40176°F]
Servicing	maintenance-free

### Safety notes

Weight

Weight

Safety data

This device has been designed for use in stationary heating, ventilation and air-conditioning
systems and must not be used outside the specified field of application, especially in aircraft or
in any other airborne means of transport.

0.98 kg

- Outdoor application: only possible in case that no (sea) water, snow, ice, insolation or
  aggressive gases interfere directly with the device and that it is ensured that the ambient
  conditions remain within the thresholds according to the data sheet at any time.
- Only authorised specialists may carry out installation. All applicable legal or institutional installation regulations must be complied during installation.
- The device may only be opened at the manufacturer's site. It does not contain any parts that can be replaced or repaired by the user.
- · Cables must not be removed from the device.
- To calculate the torque required, the specifications supplied by the damper manufacturers concerning the cross-section, the design, the installation situation and the ventilation conditions must be observed.
- The device contains electrical and electronic components and must not be disposed of as household refuse. All locally valid regulations and requirements must be observed.

**Mode of operation** The actuator is connected with a standard control signal of 4...20 mA and drives to the position defined by the control signal. Measuring voltage U serves for the electrical display of the

damper position 0...100% and as control signal for other actuators.

Parametrisable actuators The factory settings cover the most common applications. Single parameters can be modified

with the Belimo Service Tools MFT-P or ZTH EU.

**Simple direct mounting** Simple direct mounting on the damper shaft with a universal shaft clamp, supplied with an anti-

rotation device to prevent the actuator from rotating.

Manual override Manual override with push-button possible (the gear train is disengaged for as long as the

button is pressed or remains locked).

Adjustable angle of rotation Adjustable angle of rotation with mechanical end stops.

High functional reliability The actuator is overload protected, requires no limit switches and automatically stops when the

end stop is reached.

### Home position

The first time the supply voltage is switched on, i.e. at the time of commissioning, the actuator carries out a synchronisation. The synchronisation is in the home position (0%).

The actuator then moves into the position defined by the control signal.

### Adaptation and synchronisation

An adaptation can be triggered manually by pressing the "Adaptation" button or with the PCTool. Both mechanical end stops are detected during the adaptation (entire setting range).

Automatic synchronisation after pressing the manual override button is configured. The synchronisation is in the home position (0%).

The actuator then moves into the position defined by the control signal.

A range of settings can be adapted using the PC-Tool (see MFT-P documentation)

### **Accessories**

Electrical accessories	Description	Туре
	Auxiliary switch 1 x SPDT add-on	S1A
	Auxiliary switch 2 x SPDT add-on	S2A
	Feedback potentiometer 140 Ω add-on	P140A

# **Electrical installation**

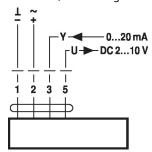

Supply from isolating transformer.

Parallel connection of other actuators not possible.

# Wiring diagrams

AC/DC 24 V, modulating

#### Cable colours:

1 = black

2 = red

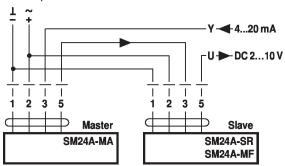

3 = white

5 = orange

### **Functions**

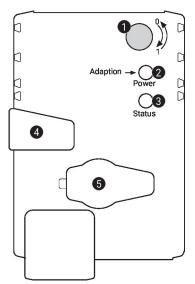

# Functions with basic values (conventional mode)

Follow-up control

# Operating controls and indicators

1 Direction of rotation switch

Switch over: Direction of rotation changes

2 Push-button and LED display green

Off: No power supply or malfunction

On: In operation

Press Triggers angle of rotation adaptation, followed by standard mode

button:

Push-button and LED display yellow

Off: Standard mode

On: Adaptation or synchronisation process active

Press button: No function

4 Manual override button

Press button: Gear train disengages, motor stops, manual override possible
Release Gear train engages, synchronisation starts, followed by standard

button: mode

**5** Service plug

For connecting parametrisation and service tools

Check power supply connection

2 Off and 3 On Possible wiring error in power supply

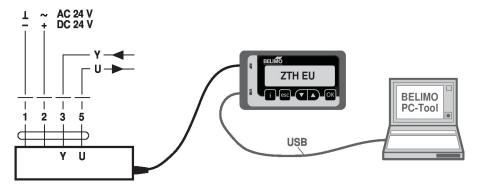

### Service

**Tools connection** 

The actuator can be parametrised by ZTH EU via the service socket.

For an extended parametrisation the PC tool can be connected.

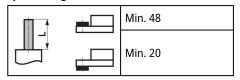

Connection ZTH EU / PC-Tool

# **Dimensions**

# Spindle length

# Clamping range

	$\bigcirc$		$\Diamond$
	1020	≥10	≤20
CrNi (INOX)	1220	≥10	≤20

When using a round shaft made of CrNi (INOX): Ø 12...20 mm
